

ANIKET KUMAR

Senior Associate Consultant | Cloud & CI/CD Automation | Applied AI Integrations

+91-9122969421 | akaniketkumar532015@gmail.com | aniket.uk | github.com/aniket532015 | linkedin.com/in/aniket-kumar

PROFESSIONAL SUMMARY

Senior Associate Consultant with 2+ years running CI/CD pipelines (Jenkins, GitHub Actions) and cloud-native infrastructure on AWS — Docker, Kubernetes, Terraform, Ansible — for enterprise clients including Universal Music Group. Background in RESTful APIs and microservices (Python, FastAPI, Java Spring Boot), extended recently into applied AI with production voice/chat agents (OpenAI, Google Gemini, Twilio).

TECHNICAL SKILLS

CI/CD and DevOps: GitHub Actions, Jenkins, CI/CD Pipeline Design, Docker, Kubernetes, Terraform, Ansible

Cloud Platforms: AWS EC2, S3, IAM, CloudWatch, SQS, RDS

Applied AI / Voice & Chat Agents: OpenAI, Google Gemini, Twilio, conversational voice/text agents

Salesforce Ecosystem: MuleSoft Developer Certified, Salesforce integration

Back-End Development: Python, FastAPI, Java, Spring Boot, RESTful APIs, Microservices, PostgreSQL, MySQL, MongoDB

Version Control, Testing and OS: Git, GitHub, Postman, Bash Scripting, Linux, Ubuntu

PROFESSIONAL EXPERIENCE

Senior Associate Consultant, DevOps | Invenio, Hyderabad, India

June 2024 – Present

- Maintained Jenkins CI/CD pipelines, **reducing deployment effort by 50%**.
- Managed AWS infrastructure including EC2, S3, IAM, and CloudWatch for enterprise applications.
- Supported deployment and maintenance of Java Spring Boot microservices.
- Implemented monitoring dashboards, health checks, and alerting mechanisms using AWS CloudWatch.
- Automated operational workflows, **reducing manual effort by 40%**.
- Troubleshoot infrastructure and application issues, ensuring high availability.
- Worked with Docker containers and deployment automation across staging and production environments.
- Delivered solutions for enterprise clients including Universal Music Group.

Associate Consultant, DevOps | Invenio, Hyderabad, India

June 2024

- Developed a backend application to automate financial ticketing data, **reducing manual processing time by 80%**.
- Optimized CI/CD pipelines with Jenkins, Git, and AWS, reducing deployment time and enhancing development workflows.
- Implemented AWS CloudWatch logging and monitoring for EC2 instances and SQS queues to ensure high availability and proactive issue detection.
- Performed server maintenance and automated infrastructure management to improve system reliability and scalability.
- Created Java-based automation scripts to streamline admin tasks and enhance operational productivity.
- Actively contributed to the Symphony migration project using MuleSoft (Mule 4), ensuring robust integration and secure service connectivity across cloud platforms.

PROJECTS

Portfolio Website — Personal Portfolio — aniket.uk

- Personal portfolio site showcasing DevOps and applied-AI work, with an embedded Alfred OS AI concierge and links to live projects.

Alfred OS — Voice + Text AI, FastAPI, LLM — integrate-ai.aniket.uk

- Embedded a 24/7 conversational AI agent directly on a portfolio site, letting visitors and recruiters ask about background, skills, and projects via voice or text and get guided through the work.

AI Hybrid Voice Caller — FastAPI, Twilio, Google Gemini, MongoDB — aicalling.aniket.uk/

- Built a hybrid rule-engine + AI voice calling system for automated medical appointment reminders, scheduling, and cancellations — Twilio for telephony/neural TTS, MongoDB for data, and a fast-path rule engine that falls back to Google Gemini (then Mistral, then OpenAI) for open-ended queries.

School ERP SaaS Platform — FastAPI, PostgreSQL, AWS

- Architected a multi-tenant backend with RESTful APIs for student management, attendance, fees, and academic workflows, including RBAC-based authentication, deployed on AWS.

CERTIFICATIONS

MuleSoft Developer (Salesforce) | AWS Cloud 101 (AWS Educate) | ITIL Certification (Invenio) | NPTEL Cloud Computing

EDUCATION

GIET University, Odisha, India

Bachelor of Technology, Computer Science Engineering | 2020 – 2024
